

**Left Photo (Top):** ACCORD Restoration matched the three color brick exterior and finish.

**Right Photo:** A truck crashed into the side wall of Romeo's Restaurant.

## **Project Spotlight: Romeo's Restaurant - Car Crash**

### **Cause**

A large truck crashed into the side wall of Romeo's Restaurant in Eldersburg, MD.

### **Damage Description**

ACCORD Restoration responded as soon as the call to assess the damage came in. Upon arrival, ACCORD Restoration observed a 20' wide section of the exterior wall pushed into the dining area about two feet.

### **Action**

Because the exterior wall was pushed into the dining area, ACCORD's first area of concern was to restore the interior as quickly as possible to prevent the loss of income to the restaurant. ACCORD restored the side wall and interior first and worked in off peak hours to minimize the disruption of business. Finally ACCORD focused on matching the three color brick exterior and finish.

### **Impact on Claim**

ACCORD Restoration repaired all damages and restored the restaurant back to its pre-loss condition.
